THE HOLLYWOOD PROCESS

PRE-PRODUCTION PRACTICE

1. Divide into Film Teams — characters (dependent upon the scene), DOP (cinematographer), production sound mixer, & lighting gaffer
2. Choose a scene from either your premiere production proposal script, or choose another script. Use the Hollywood Process to create that scene.
3. Do site research to choose a location at school where you can film the scene.
4. Rehearse the scene and practice blocking
5. Film the scene with inserts and B-roll
